

We would like to respectfully request the removal of offensive material from PROPERTY NAME.

IDENTIFY PROPERTY/ADDRESS AND AS OBJECTIVELY AS POSSIBLE DESCRIBE THE ART, DISPLAY OR MARKETING MATERIAL YOU ARE CONCERNED ABOUT.

While we understand freedom of expression in art is important, we believe families and children should not be forcibly exposed to negative, graphic and inappropriate images. These types of displays should have no place in public areas.

We believe public art adds value to our communities and culture. Art can uplift a community, foster pride, enrich the culture and create a strong sense of identity. For these reasons, we support public art and attractions that convey a positive message and promote respect, integrity, love, morality and positive ideals.

Obscene, vulgar and indecent displays that promote crime, violence or sin disparage our communities and should be removed from public spaces.

We understand art is subjective, but we also believe individuals should feel protected from the obscene while in public spaces. As a society, we understand the need to regulate television and radio with regulations like the Safe Harbor Hours. Public spaces should be given the same protections and subjected to the same regulations that limit indecency and vulgarity.

We are asking that COMPANY NAME/PROPERTY OWNER/ORGANIZATION give our concerns serious consideration and begin efforts to remove the inappropriate display from public view.
